Items for discussion

What should be the priorities for transport planning in the borough? How can we make De Beauvoir a great place for cyclists and non-cyclists to travel?

If you're interested or have ideas for how transport and cycling in particular could be improved then do please join us for what we hope will be a lively discussion.

Joining us will be officers from the Council's transport planning team and Streetscene, who will share the Council's proposals for sustainable transport.
