		Licensing Committee to bring recommendation 2.2(i) above into effect.
9	Report of the Chief Executive: Members' Allowances Scheme 2017/18	RESOLVED that the Council agrees the report and the Members' Allowances Scheme for 2017/18, attached at Appendix 1.
10	Report of the Chief Executive: Overview and Scrutiny Annual Report	RESOLVED that Council note the report.
11	Report of Standards Committee: Annual Report 2016/17	RESOLVED that the Standards Committee's Annual Report for 2016/17 be noted, as attached at Appendix 1.
12	Report of Standards Committee: Re-appointment of Independent Person to Standards Committee	RESOLVED that the Council approve the re-appointment of Mr Jonathan Stopes-Roe as the Independent Person for a further period of four years. This appointment will come to an end in June 2021.
13	UK 100 Clean Energy	<p>This Council resolves to support the UK100 pledge to shift towards 100% clean energy across the London Borough of Hackney's full range of functions, by 2050.</p> <p>We, Hackney Council, acknowledge our responsibility to help secure an environmentally sustainable future, both for our residents and all people around the world faced with the challenges brought about by human-influenced climate change.</p> <p>At the 2015 United Nations Climate Change Conference in Paris, leaders seized the opportunity to commit to a new energy future. Although the groundbreaking Paris Agreement does not place binding commitments upon local government institutions, we in Hackney intend to match its goals. The world is coming together to create a new energy system - we intend to be part of that change by creating and delivering our own local commitments and solutions.</p> <p>We will decouple from fossil fuels not merely because it is 'good for the planet' in an abstract</p>

London Borough of Hackney – Decisions taken by the Council on Wednesday, 26 July 2017

Agenda Item No	Topic	Decision
		<p>sense, but because it is good for the people we serve.</p> <p>The people of Hackney deserve warm homes, secure and affordable energy, clean air and drinking water, and to live in a borough that takes its environmental obligations seriously.</p> <p>Shifting Hackney’s consumption of energy towards renewables will help keep the lights on, drive renewables deployment and lower their unit costs, protect consumers from high and unstable energy prices, and contribute to geopolitical stability by reducing our dependence on imported fuel.</p> <p>By addressing the scientific reality of human-influenced climate change, we will also be able to rebuild our own industrial and manufacturing base; creating well-paid, high-skilled employment, both locally and across the country. The UK100 Agreement is a pledge for jobs and economic prosperity.</p> <p>The challenges we face require ambition and imagination if they are to be overcome, so that our children can enjoy a safe and secure future. We will take action that tackles climate change but also builds communities, which are the best places for our children to grow up.</p> <p>We are facing an existential crisis for which there is no comparison in human history, and it is to us that this challenge has fallen. As a society, we are well-placed to contribute to the solutions we require, because of our industrial past and our history of willingness to lead on finding solutions to the new challenges the world faces.</p> <p>We have the ambition to achieve 100% clean energy across the London Borough of Hackney’s full range of functions by 2050, and to work in partnership with our residents and business community to deliver against the commitments made nationally and internationally at the 2015 Paris Summit.</p>

London Borough of Hackney – Decisions taken by the Council on Wednesday, 26 July 2017

Agenda Item No	Topic	Decision
		<p>We hope other towns and cities across the globe will join us to demonstrate that this transition will happen through acts of leadership by the many not the few, and that a transition to a clean energy future is both viable and already beginning to happen in many towns and cities today. We join with other communities across the UK who have made the same commitment to delivering a better future for everyone.</p> <p>We resolve to turn this commitment into reality by developing a route map to a more sustainable future that also builds the kind of community of which we can be proud.</p> <p>For: Many Against: 2 Abstention: None</p>
14	Appointments to Committees and Commissions (standing item)	<p>RESOLVED that the Council:</p> <p>1.
