

# Audit Strategy Memorandum

London Borough of Hackney

Year ending 31 March 2019

## CONTENTS

1. Engagement and responsibilities summary
2. Your audit engagement team
3. Audit scope, approach and timeline
4. Significant risks and key judgement areas
5. Value for Money
6. Fees for audit and other services
7. Our commitment to independence
8. Materiality and misstatements

Appendix A – Key communication points

Appendix B - Forthcoming accounting and other issues

Appendix C – Mazars' client service commitment

This document is to be regarded as confidential to the London Borough of Hackney. It has been prepared for the sole use of the Audit Committee as the appropriate sub-committee charged with governance. No responsibility is accepted to any other person in respect of the whole or part of its contents. Our written consent must first be obtained before this document, or any part of it, is disclosed to a third party.

Audit Committee  
London Borough of Hackney  
Hackney Service Centre  
1 Hillman Street  
London  
E8 1DY

28 January 2019

Dear Members,

**Audit Strategy Memorandum – Year ending 31 March 2019**

We are pleased to present our Audit Strategy Memorandum for London Borough of Hackney for the year ending 31 March 2019.

The purpose of this document is to summarise our audit approach, highlight significant audit risks and areas of key judgements and provide you with the details of our audit team. As it is a fundamental requirement that an auditor is, and is seen to be, independent of its clients, Section 7 of this document also summarises our considerations and conclusions on our independence as auditors.

We consider two-way communication with you to be key to a successful audit and important in:

- reaching a mutual understanding of the scope of the audit and the responsibilities of each of us;
- sharing information to assist each of us to fulfil our respective responsibilities;
- providing you with constructive observations arising from the audit process; and
- ensuring that we, as external auditors, gain an understanding of your attitude and views in respect of the internal and external operational, financial, compliance and other risks facing London Borough of Hackney which may affect the audit, including the likelihood of those risks materialising and how they are monitored and managed.

This document, which has been prepared following our initial planning discussions with management, is the basis for discussion of our audit approach, and any questions or input you may have on our approach or role as auditor.

This document also contains specific appendices that outline our key communications with you during the course of the audit, and forthcoming accounting issues and other issues that may be of interest.

Client service is extremely important to us and we strive to continuously provide technical excellence with the highest level of service quality, together with continuous improvement to exceed your expectations so, if you have any concerns or comments about this document or audit approach, please contact me on 020 7063 4634.

Yours faithfully

Lucy Nutley  
Mazars LLP

# 1. ENGAGEMENT AND RESPONSIBILITIES SUMMARY

## Overview of engagement

We are appointed to perform the external audit of London Borough of Hackney (the Council) for the year to 31 March 2019. The scope of our engagement is set out in the Statement of Responsibilities of Auditors and Audited Bodies, issued by Public Sector Audit Appointments Ltd (PSAA) available from the PSAA website: <https://www.psa.co.uk/audit-quality/statement-of-responsibilities/>

## Our responsibilities

Our responsibilities are principally derived from the Local Audit and Accountability Act 2014 (the 2014 Act) and the Code of Audit Practice issued by the National Audit Office (NAO), as outlined below:

### Audit opinion

We are responsible for forming and expressing an opinion on the financial statements.

Our audit is planned and performed so to provide reasonable assurance that the financial statements are free from material error and give a true and fair view of the financial performance and position of the Council for the year.

### Reporting to the NAO

We report to the NAO on the consistency of the Council's financial statements with its Whole of Government Accounts (WGA) submission.

### Value for Money

We are required to conclude whether the Council has proper arrangements in place to secure economy, efficiency and effectiveness in its use of resources. We discuss our approach to Value for Money work further in section 5 of this report.

### Electors' rights

The 2014 Act requires us to give an elector, or any representative of the elector, the opportunity to question us about the accounting records of the Council and consider any objection made to the accounts. We also have a broad range of reporting responsibilities and powers that are unique to the audit of local authorities in the United Kingdom.

Our audit does not relieve management or those charged with governance, of their responsibilities. The responsibility for safeguarding assets and for the prevention and detection of fraud, error and non-compliance with law or regulations rests with both those charged with governance and management. In accordance with International Standards on Auditing (UK), we plan and perform our audit so as to obtain reasonable assurance that the financial statements taken as a whole are free from material misstatement, whether caused by fraud or error. However our audit should not be relied upon to identify all such misstatements.

As part of our audit procedures in relation to fraud we are required to enquire of those charged with governance as to their knowledge of instances of fraud, the risk of fraud and their views on management controls that mitigate the fraud risks.

The Council is required to prepare its financial statements on a going concern basis by the Code of Practice on Local Authority Accounting. As auditors, we are required to consider the appropriateness of the use of the going concern assumption in the preparation of the financial statements and the adequacy of disclosures made.

For the purpose of our audit, we have identified the Audit Committee as those charged with governance.

## 2. YOUR AUDIT ENGAGEMENT TEAM

- **Lucy Nutley, Director and Engagement Lead**
- Lucy.Nutley@mazars.co.uk
- 020 7063 4634

- **Stuart Frith, Engagement Manager**
- Stuart.Frith@mazars.co.uk
- 020 7063 4409

In addition, an engagement quality control reviewer has been appointed for this engagement. This is in line with our audit quality requirements..

# 3. AUDIT SCOPE, APPROACH AND TIMELINE

## Audit scope

Our audit approach is designed to provide an audit that complies with all professional requirements.

Our audit of the financial statements will be conducted in accordance with International Standards on Auditing (UK), relevant ethical and professional standards, our own audit approach and in accordance with the terms of our engagement. Our work is focused on those aspects of your business which we consider to have a higher risk of material misstatement, such as those affected by management judgement and estimation, application of new accounting standards, changes of accounting policy, changes to operations or areas which have been found to contain material errors in the past.

## Audit approach

Our audit approach is a risk-based approach primarily driven by the risks we consider to result in a higher risk of material misstatement of the financial statements. Once we have completed our risk assessment, we develop our audit strategy and design audit procedures in response to this assessment.

If we conclude that appropriately-designed controls are in place then we may plan to test and rely upon these controls. If we decide controls are not appropriately designed, or we decide it would be more efficient to do so, we may take a wholly substantive approach to our audit testing. Substantive procedures are audit procedures designed to detect material misstatements at the assertion level and comprise tests of details (of classes of transactions, account balances, and disclosures) and substantive analytical procedures. Irrespective of the assessed risks of material misstatement, which take into account our evaluation of the operating effectiveness of controls, we are required to design and perform substantive procedures for each material class of transactions, account balance, and disclosure.

Our audit will be planned and performed so as to provide reasonable assurance that the financial statements are free from material misstatement and give a true and fair view. The concept of materiality and how we define a misstatement is explained in more detail in section 8.

The diagram below outlines the procedures we perform at the different stages of the audit.

### 3. AUDIT SCOPE, APPROACH AND TIMELINE (CONTINUED)

#### Reliance on internal audit

Where possible we will seek to utilise the work performed by internal audit to modify the nature, extent and timing of our audit procedures. We will meet with internal audit to discuss the progress and findings of their work prior to the commencement of our controls evaluation procedures.

At the planning stage, we do not intend to rely on the work of internal audit, but will gain assurances from the conclusions they reach. Where we intend to rely on the work of internal audit, we will evaluate the work performed by your internal audit team and perform our own audit procedures to determine its adequacy for our audit.

#### Management's and our experts

Management makes use of experts in specific areas when preparing the Council's financial statements. We also use experts to assist us to obtain sufficient appropriate audit evidence on specific items of account.

Items of account	Management's expert	Our expert
Defined Benefit Pension liability	Hymans Robertson	We will review the national analysis of pension trends and assumptions of the various LGPS actuaries and consider the findings for potential impact on the values and associated disclosures included within the financial statements.
Property Plant and Equipment valuation	Internal valuer	We will review the property valuation movements analysis provided centrally by PSAA and consider the outcome of the WHE valuations in comparison with these, challenging conclusions as appropriate.
Financial instrument disclosures	Arlingclose	We will review the output and associated analysis against available information to confirm that the basis of the assessments appears reasonable and the disclosures are appropriate.

#### Service organisations

International Auditing Standards (UK) define service organisations as third party organisations that provide services to the Council that are part of its information systems relevant to financial reporting. We are required to obtain an understanding of the services provided by service organisations as well as evaluating the design and implementation of controls over those services. We have confirmed that the Council does not make material use of service organisations.

## 4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS

Following the risk assessment approach discussed in section 3 of this document, we have identified relevant risks to the audit of financial statements. The risks that we identify are categorised as significant, enhanced or standard, as defined below:

**Significant risk** A significant risk is an identified and assessed risk of material misstatement that, in the auditor’s judgment, requires special audit consideration. For any significant risk, the auditor shall obtain an understanding of the entity’s controls, including control activities relevant to that risk.

**Enhanced risk** An enhanced risk is an area of higher assessed risk of material misstatement at audit assertion level other than a significant risk. Enhanced risks incorporate but may not be limited to:

- key areas of management judgement, including accounting estimates which are material but are not considered to give rise to a significant risk of material misstatement; and
- other audit assertion risks arising from significant events or transactions that occurred during the period.

**Standard risk** This is related to relatively routine, non-complex transactions that tend to be subject to systematic processing and require little management judgement. Although it is considered that there is a risk of material misstatement, there are no elevated or special factors related to the nature, the likely magnitude of the potential misstatements or the likelihood of the risk occurring.

In assessing the significant risks and key judgement areas we have reviewed key documents and spoken to key members of management. At this point, we have not performed a detailed review of systems. Should further significant risks arise from this work, we will update the Committee accordingly.

The summary risk assessment, illustrated in the table below, highlights those risks which we deem to be significant. We have summarised our audit response to these risks on the next page.

Risk	
1	Management override of control
2	Revenue / expenditure recognition
3	Property, plant and equipment valuation
4	Defined benefit liability valuation

## 4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS (CONTINUED)

We provide more detail on the identified risks and our testing approach with respect to significant risks in the table below. An audit is a dynamic process, should we change our view of risk or approach to address the identified risks during the course of our audit, we will report this to the Audit Committee.

### Significant risks

	Description of risk	Planned response
1	<p><b>Management override of controls</b></p> <p>Management at various levels within an organisation are in a unique position to perpetrate fraud because of their ability to manipulate accounting records and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. Due to the unpredictable way in which such override could occur there is a risk of material misstatement due to fraud on all audits.</p>	<p>We will address the risk through performing audit procedures, covering a range of areas including (but not limited to):</p> <ul style="list-style-type: none"> <li>• accounting estimates included in the financial statements for evidence of management bias;</li> <li>• any significant transactions outside the normal course of business; and</li> <li>• journals and other adjustments recorded in the general ledger in preparing the financial statements.</li> </ul>
2	<p><b>Revenue / expenditure recognition</b></p> <p>Our audit methodology incorporates this risk as a significant risk at all audits, although based on the circumstances of each audit, it is rebuttable.</p> <p>Based on our initial knowledge and planning discussions we have concluded that we can rebut the presumption of a revenue recognition risk for the majority of the Authority's revenue income and expenditure. In particular we can rebut the revenue recognition risk for income derived from Council Tax, Grants and NNDR due to the low inherent risk associated with these amounts.</p> <p>We are not rebutting the income risk relating to other material income streams within the Council, such as adult social care costs and charges for use of Council facilities, where the level of inherent risk is higher.</p> <p>We consider that the pressure to manage income and expenditure to deliver forecast performance in a challenging financial environment could increase the risk of fraudulent financial reporting, leading to material misstatement. Our risk based testing on income will therefore be extended to cover expenditure also.</p>	<p>We plan to address this risk by obtaining a detailed understanding of the Authority's processes which assure it that revenue and expenditure materially recognised in the correct accounting year. We will carry out</p> <ul style="list-style-type: none"> <li>• detailed testing of transactions within the 2018/19 financial statements to confirm they are accounted for in the correct year;</li> <li>• testing from payments and receipts around the year-end to provide assurance that there are no material unrecorded items of income and expenditure in the 2018/19 accounts.</li> </ul>

## 4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS (CONTINUED)

	Description of risk	Planned response
3	<p><b>Property, plant and equipment valuation</b></p> <p>Where a Council's assets are subject to revaluation, the Code requires that the year end carrying value should reflect the appropriate fair value as at that date. The Council has adopted a rolling revaluation model which sees other land and buildings revalued over a five year cycle, and may result in individual assets not being revalued for several years. This creates a risk that the carrying value of those assets that have not been revalued in year is materially different from the year end fair value.</p> <p>In respect of Council Dwellings, these are reviewed using a beacon valuation methodology, which values Council stock by grouping assets into type and using a nominated beacon asset for each group. The assessed value is uplifted based on an open market assessment then amended for an adjustment factor provided by DCLG.</p> <p>Due to the high degree of estimation uncertainty associated with these valuations, we have determined there is a significant risk in this area.</p>	<p>We will address this risk by reviewing the approach adopted by the Council to assess the risk that assets not subject to valuation at year end are not materially misstated, and consider the robustness of that approach.</p> <p>We will also assess the risk of the valuation changing materially in year, considering the movement in market indices between revaluation dates and the year end, in order to determine whether these indicate that fair values have moved materially.</p> <p>In addition, for those assets which have been revalued during the year we will:</p> <ul style="list-style-type: none"> <li>• assess the valuer's qualifications;</li> <li>• assess the valuer's objectivity and independence;</li> <li>• review the methodology used; and</li> <li>• Perform testing of the associated underlying data and assumptions.</li> </ul>
4	<p><b>Defined benefit liability valuation</b></p> <p>The last triennial valuation London Borough of Hackney pension fund was completed as at 31 March 2016. As an admitted body within the fund, the valuation provides the basis of the associated net pension liability for the Council as at 31 March 2019.</p> <p>The valuation of the Council's net liability includes use of discount rates, inflation rates, mortality rates etc., all of which should reflect the profile of the Council's employees and other appropriate data.</p> <p>Due to the high degree of estimation uncertainty associated with these valuations, we have determined there is a significant risk in this area.</p> <p>Local Government Pension Schemes have included an interim solution since 2016 on Guaranteed Minimum Pension equalisation and as such, this is not considered part of the defined benefit liability valuation risk.</p>	<p>We will address this risk by reviewing the controls that the Authority has in place over the information sent to the Scheme Actuary by the fund administrators (London Borough of Hackney Pension Fund).</p> <p>We will also:</p> <ul style="list-style-type: none"> <li>• assess the skill, competence and experience of the Fund's actuary;</li> <li>• challenge the reasonableness of the assumptions used by the actuary as part of the annual IAS 19 valuation;</li> <li>• carry out a range of substantive procedures on relevant information and cash flows used by the actuary as part of the annual IAS 19 valuation.</li> </ul>

## 4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS (CONTINUED)

### Key areas of management judgement

Key areas of management judgement include accounting estimates which are material but are not considered to give rise to a significant risk of material misstatement. The following are the areas of management judgement represent other areas of audit emphasis.

	Area of management judgement	Planned response
1	<p><b>Significant Property Developments</b></p> <p>During the course of the year the Council has continued to progress the significant property developments at Nile Street and Tiger Way. These developments are, due to the specifics of the plans and the ownership, complex in nature and as such will involve complex accounting arrangements. At the time of writing, we await detailed consideration of the proposed accounting treatment from the Council.</p>	<p>We will address this judgement by reviewing in detail the proposed accounting treatment for the two affected developments and, if appropriate for the 2018/19 financial statements, agree the specific entries that are required to reflect the substance of the transactions that have taken place.</p>

# 5. VALUE FOR MONEY

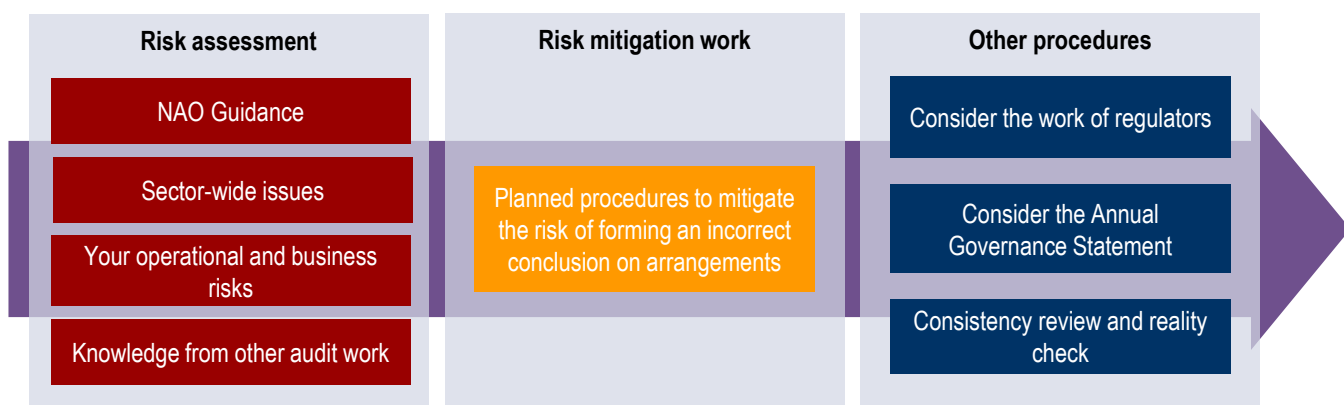

## Our approach to Value for Money

We are required to form a conclusion as to whether the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The NAO issues guidance to auditors that underpins the work we are required to carry out, and sets out the overall criterion and sub-criteria that we are required to consider.

The overall criterion is that, 'in all significant respects, the Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.' To assist auditors in reaching a conclusion on this overall criterion, the following sub-criteria are set out by the NAO:

- informed decision making;
- sustainable resource deployment; and
- working with partners and other third parties.

A summary of the work we undertake to reach our conclusion is provided below:

## Significant Value for Money risks

The NAO's guidance requires us to carry out work at the planning stage to identify whether or not a Value for Money (VFM) exists. Risk, in the context of our VFM work, is the risk that we come to an incorrect conclusion rather than the risk of the arrangements in place at the Council being inadequate. As outlined above, we draw on our deep understanding of the Council and its partners, the local and national economy and wider knowledge of the public sector.

For the 2018/19 financial year, we have identified the following significant risk(s) to our VFM work:

Description of significant risk	Planned response
<p>The current financial forecast shows that the Council is forecasting an overspend of approximately £5.9m in 2018/19, primarily a result of overspends on social care and delays in the application and delivery of planned savings in a number of areas. The overspend is planned to be offset substantially by the application of unspent Council Tax and NNDR Collection Fund surpluses brought forward. It is recognised that this is a short term measure.</p> <p>The Council has identified the need to make further savings of to be able to remain within forecast funding levels and has planned council tax increases on the basis of the forecast income. The 2019/20 budget is expected to include further proposals to support the delivery of the overall savings requirement and manage the ongoing financial position of the council.</p>	<p>We will review the controls put in place by the Authority to ensure financial resilience, including the development and implementation of the Medium Term Financial Strategy, and that this has taken into consideration factors such as funding reductions, salary and general inflation, demand pressures, etc.</p> <p>We will specifically review management actions and mitigations to deliver the budgeted position.</p>

## 6. FEES FOR AUDIT AND OTHER SERVICES

### Fees for work as the Council's appointed auditor

At this stage of the audit we are not planning any divergence from the scale fees set by PSAA as communicated in our fee letter of 25 April 2018.

Service	2017/18 fee	2018/19 fee
Code audit work	£226,320	£174,266

The prior year audit was performed by KPMG LLP.

### Fees for non-PSAA work

In addition to the fees outlined above in relation to our appointment by PSAA, we have been separately engaged by the Council to carry out additional work as set out in the table below. Before agreeing to undertake any additional work we consider whether there are any actual, potential or perceived threats to our independence. Further information about our responsibilities in relation to independence is provided in section 7.

Service	2017/18 fee	2018/19 fee
Other services - Housing Benefits Subsidy Assurance	N/A	£22,000

Housing benefits subsidy assurance in 2017/18 was contracted by PSAA and therefore has been shown as N/A in the table above.

## 7. OUR COMMITMENT TO INDEPENDENCE

We are committed to independence and are required by the Financial Reporting Council to confirm to you at least annually, in writing, that we comply with the Financial Reporting Council's Ethical Standard. In addition, we communicate any matters or relationship which we believe may have a bearing on our independence or the objectivity of the audit team.

Based on the information provided by you and our own internal procedures to safeguard our independence as auditors, we confirm that in our professional judgement there are no relationships between us and any of our related or subsidiary entities, and you and your related entities creating any unacceptable threats to our independence within the regulatory or professional requirements governing us as your auditors.

We have policies and procedures in place which are designed to ensure that we carry out our work with integrity, objectivity and independence. These policies include:

- all partners and staff are required to complete an annual independence declaration;
- all new partners and staff are required to complete an independence confirmation and also complete computer-based ethics training;
- rotation policies covering audit engagement partners and other key members of the audit team;
- use by managers and partners of our client and engagement acceptance system which requires all non-audit services to be approved in advance by the audit engagement partner.

We confirm, as at the date of this document, that the engagement team and others in the firm as appropriate, and Mazars LLP are independent and comply with relevant ethical requirements. However, if at any time you have concerns or questions about our integrity, objectivity or independence please discuss these with Lucy Nutley in the first instance.

Prior to the provision of any non-audit services Lucy will undertake appropriate procedures to consider and fully assess the impact that providing the service may have on our auditor independence.

No threats to our independence have been identified.

Any emerging independence threats and associated identified safeguards will be communicated in our Audit Completion Report.

## 8. MATERIALITY AND MISSTATEMENTS

### Summary of initial materiality thresholds

Threshold	Initial threshold
Overall materiality	£13.5m
Trivial threshold for errors to be reported to the Audit Committee	£270,000

### Materiality

Materiality is an expression of the relative significance or importance of a particular matter in the context of financial statements as a whole. Misstatements in financial statements are considered to be material if they, individually or in aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Judgements on materiality are made in light of surrounding circumstances and are affected by the size and nature of a misstatement, or a combination of both. Judgements about materiality are based on consideration of the common financial information needs of users as a group and not on specific individual users.

The assessment of what is material is a matter of professional judgement and is affected by our perception of the financial information needs of the users of the financial statements. In making our assessment we assume that users:

- have a reasonable knowledge of business, economic activities and accounts;
- have a willingness to study the information in the financial statements with reasonable diligence;
- understand that financial statements are prepared, presented and audited to levels of materiality;
- recognise the uncertainties inherent in the measurement of amounts based on the use of estimates, judgement and the consideration of future events; and
- will make reasonable economic decisions on the basis of the information in the financial statements.

We consider materiality whilst planning and performing our audit based on quantitative and qualitative factors.

Whilst planning, we make judgements about the size of misstatements which we consider to be material and which provides a basis for determining the nature, timing and extent of risk assessment procedures, identifying and assessing the risk of material misstatement and determining the nature, timing and extent of further audit procedures.

The materiality determined at the planning stage does not necessarily establish an amount below which uncorrected misstatements, either individually or in aggregate, will be considered as immaterial.

We revise materiality for the financial statements as our audit progresses should we become aware of information that would have caused us to determine a different amount had we been aware of that information at the planning stage.

Our provisional materiality is set based on a benchmark of Gross Revenue Expenditure. We will identify a figure for materiality but identify separate levels for procedures designed to detect individual errors, and also a level above which all identified errors will be reported to the Audit Committee.

Therefore, based on the value of Gross Revenue Expenditure incurred in 2017/18 we anticipate the overall materiality for the year ending 31 March 2019 to be in the region of £13.5m (£15m in the prior year).

After setting initial materiality, we continue to monitor materiality throughout the audit to ensure that it is set at an appropriate level.

## 8. MATERIALITY AND MISSTATEMENTS (CONTINUED)

### Misstatements

We aggregate misstatements identified during the audit that are other than clearly trivial. We set a level of triviality for individual errors identified (a reporting threshold) for reporting to the Audit & Governance Committee that is consistent with the level of triviality that we consider would not need to be accumulated because we expect that the accumulation of such amounts would not have a material effect on the financial statements. Based on our preliminary assessment of overall materiality, our proposed triviality threshold is £270,000 based on 2% of overall materiality. If you have any queries about this please do not hesitate to raise these with Lucy.

### Reporting to the Audit & Governance Committee

To comply with International Standards on Auditing (UK), the following three types of audit differences will be presented to the Audit Committee:

- summary of adjusted audit differences;
- summary of unadjusted audit differences; and
- summary of disclosure differences (adjusted and unadjusted).

# APPENDIX A – KEY COMMUNICATION POINTS

ISA (UK) 260 'Communication with Those Charged with Governance', ISA (UK) 265 'Communicating Deficiencies In Internal Control To Those Charged With Governance And Management' and other ISAs (UK) specifically require us to communicate the following:

Required communication	Audit Strategy Memorandum	Audit Completion Report
Our responsibilities in relation to the audit of the financial statements and our wider responsibilities	✓	
Planned scope and timing of the audit	✓	
Significant audit risks and areas of management judgement	✓	
Our commitment to independence	✓	✓
Responsibilities for preventing and detecting errors	✓	
Materiality and misstatements	✓	✓
Fees for audit and other services	✓	
Significant deficiencies in internal control		✓
Significant findings from the audit		✓
Significant matters discussed with management		✓
Our conclusions on the significant audit risks and areas of management judgement		✓
Summary of misstatements		✓
Management representation letter		✓
Our proposed draft audit report		✓

# APPENDIX B – FORTHCOMING ACCOUNTING AND OTHER ISSUES

## Changes relevant to 2018/19

IFRS 9 Financial Instruments - the standard replaces IAS 39 and introduces significant changes to the recognition and measurement of the Council's financial instruments, particularly its financial assets.

Although the accounting changes may be complex and may require the reclassification of some instruments, it is likely that the Council will continue to measure the majority of its financial assets at amortised costs.

For Councils that hold instruments that will be required to be measured at fair value under the new standard, there may be instances where changes in these fair values are recognised immediately and impact on the general fund. At this stage it is unclear whether statutory provisions, over and above those already in place, will be put in place to mitigate the impact of these fair value movements on the Council's general fund balance.

IFRS 15 Revenue from Contracts with Customers - the 2018/19 Code also applies the requirements of IFRS 15, but it is unlikely that this will have significant implications for most local authorities.

There are no other significant changes to the Code of Practice on Local Authority Accounting (the Code) for 2018/19.

## Changes in future years

Accounting standard	Year of application	Implications
IFRS 16 – Leases	2020/21 (recently revised application date)	<p>We are aware that adoption of the new leasing standard has been deferred by CIPFA and will now form part of the Code for the 2020/21 financial year.</p> <p>IFRS 16 will replace the existing leasing standard, IAS 17, and will introduce significant changes, particularly for lessees. The requirements for lessors will be largely unchanged from the position in IAS 17.</p> <p>Lessees will need to recognise assets and liabilities for all leases (except short-life or low-value leases) as the distinction between operating leases and finance leases is removed.</p> <p>The introduction of this standard is likely to lead to significant work being required in order to identify all leases to which the Council (and its schools) are party to.</p> <p>We note that, where a public sector body has a subsidiary preparing statements under FRS101, the adoption date remains as 2019/20 as the public sector deferral will not apply to the single entity statements.</p>

# APPENDIX C – MAZARS' CLIENT SERVICE COMMITMENT

We are here because of our clients; serving them in the best way we can is part of our DNA. We operate a Code of Conduct which drives our client service commitment in all areas, as set out below.
