

LB Hackney Pension Fund – Investment Strategy Statement Section 8

How social, environmental or corporate governance considerations are taken into account in the selection, non-selection, retention and realisation of investments

The Fund invests on the basis of financial risk and return, having considered a full range of factors, including environmental, social, and corporate governance (ESG) factors where these present financial risks to the delivery of portfolio objectives and therefore impact on the sustainability of the Fund's returns.

The Fund therefore requires its investment managers to integrate all material financial factors, including ESG considerations, into their investment analysis and decision-making for all fund investments.

The Fund's Investment Managers (and specifically the London Collective Investment Vehicle through which the Fund will increasingly invest) are also expected to undertake appropriate monitoring of current investments with regard to their policies and practices on all issues which could present a material financial risk to the long-term performance of the fund, including ESG factors. The Fund monitors this activity on an ongoing basis with the aim of maximising its impact and effectiveness.

Where appropriate, the Committee considers how it wishes to approach specific ESG factors in the context of its role in asset allocation and investment strategy setting. Taking into account the ratification in October 2016 of the Paris Agreement, the Committee considers that significant exposure to fossil fuel reserves within the Fund's portfolio could pose a material financial risk. In summer 2016, Trucost were commissioned to produce a Carbon Risk Audit for the Fund, quantifying the Fund's exposure through its equity portfolio to fossil fuel reserves and power generation and where the greatest risks lie.

Having taken into account the risks associated with exposure to fossil fuel reserves, the Committee has approved a target to:

- Reduce the Fund's relative exposure to future emissions from fossil fuel reserves (measured in MtCO_{2e} – million tonnes of CO₂ emissions) by 50% over 2 valuation cycles (6 years)
- Measure the reduction relative to the Fund's position as at July 2016 (7.11MtCO_{2e}) and adjusted for Assets Under Management (£AUM)

The target will be periodically reviewed to ensure that it remains consistent with the risks associated with investment in carbon assets and with the Committee's fiduciary duties.

The Committee considers exposure to carbon risk in the context of its role in asset allocation and investment strategy setting. Consideration has therefore been given in setting the Fund's Investment Strategy to how this objective can be achieved within a pooled investment structure and the Committee, having

taken professional advice, will work with the London CIV to ensure that suitable strategies are made available.

Where necessary, the Fund will also engage with its Investment Managers or the London CIV to address specific areas of carbon risk. The Fund expects its investment managers to integrate financially material ESG factors into their investment analysis and decision making and may engage with managers and the London CIV to ensure that the strategies it invests in remain appropriate for its needs. However, the Fund does not at this time operate a blanket exclusion policy in respect of specific sectors or companies.

At the present time the Committee does not take into account non-financial factors when selecting, retaining, or realising its investments. The Committee reviews its approach to non-financial factors periodically, taking into account relevant legislation and the Law Commission's guidance on when such factors may be considered. Additionally, the Committee monitors legislative and other developments with regards to this subject and will review its approach in the event of material changes.

The Fund does not exclude investments in order to pursue boycotts, divestment and sanctions against foreign nations and UK defence industries, other than where formal legal sanctions, embargoes and restrictions have been put in place by the Government.

The Fund does not at the time of preparing this statement hold any assets which it deems to be social investments; however, this ISS places no specific restrictions on the Fund in respect of such investments beyond those of suitability within the Investment Strategy as a whole and compatibility with the Committee's fiduciary duties. In considering any such investment in the future, the Committee will have regard to the Guidance issued by the Secretary of State and to the Law Commission's guidance on financial and non-financial factors.
