|---|---------------------|
| Health in Hackney Scrutiny Commission 4 th December 2019 Legacy Plan for Connect Hackney | Item No 7 |
|---|---------------------|

OUTLINE

Connect Hackney aims to improve the wellbeing of Hackney residents aged 50 and over by reducing or preventing loneliness and isolation. The £5.8m six-year programme (2015–2021) is one of 14 programmes across England funded by The National Lottery Community Fund's 'Fulfilling Lives, Ageing Better programme

While Connect Hackney has been leading the way since 2015 this issue requires a long term, sustainable approach and therefore commitment from all the local public bodies beyond March 2021 when Connect Hackney ends.

Attached please find a briefing on the Legacy Plan which is being developed.

Attending for this item will be:

Tony Wong, Programme Director for Connect Hackney, HCVS

ACTION

The Commission is requested to give consideration to the Legacy Plan and make any recommendations as necessary.
