

**CORPORATE RISK REGISTER REVIEW – JUNE 2020**

<b>AUDIT COMMITTEE MEETING DATE</b> 2019/20  10 June 2020	<b>CLASSIFICATION:</b>  Open
<b>WARD(S) AFFECTED</b>  All Wards	
Ian Williams, Group Director Finance and Corporate Resources	

**1. INTRODUCTION AND PURPOSE**

Document Number: 18437215

Document Name: Corporate Risk Register

- 1.1 This report updates members on the current Corporate Risk Register of the Council as at June 2020 (attached). It also identifies how risks within the Council are identified and managed throughout the financial year and our approach to embedding risk management.
- 1.2 This report assists the Committee in its role of overseeing corporate governance and is presented for information and comment.

## **2. RECOMMENDATION(S)**

The Audit Committee is recommended to note the contents of this report and the attached risk registers and controls in place.

## **3. REASONS FOR DECISION**

- 3.1 Risk management is fundamental to effective business management and it is vitally important that we know, understand and monitor the key risks and opportunities of the Council. Officers and members are then able to consider the potential impact of such risks and take appropriate actions to mitigate these as far as possible. Some risks are beyond the control of the Council but we nevertheless need to manage the potential impact or likelihood to ensure we deliver our key objectives to the best of our ability. For other risks, we might decide to accept that we are exposed to a small level of risk because to reduce that risk to nil is either impossible or too expensive. The risk management process helps us to make such judgements, and as such it is important that Audit Committee is aware of this.

## **4. BACKGROUND**

The current Council risk profile was reviewed and ratified by the Hackney Management Team (HMT) in May 2020. In discussions and meetings with Directorate Risk Champions, various Heads of Service/Directors and other managers in different services, ideas and proposals on new risks and the current risks have been discussed, before the review being brought to HMT. Numerous risks have changed or now exist in different circumstances compared to when last reviewed by Committee in January 2020.

### **4.1 Policy Context**

All risk related reporting is in line with the Council's Risk Policy, ratified biennially by Audit Committee, and also fully supports the framework and ideology set out in the Risk Strategy.

### **4.2 Equality Impact Assessment**

For the purposes of this report, an Equality Impact Assessment is not applicable, although in the course of Risk Management (and associated duties) all work is carried out in adherence to the Council's Equality policies.

### **4.3 Sustainability**

This report contains no new impacts on the physical and social environment.

### **4.4 Consultations**

In order for Risk Registers to progress to Committee, they will already have been reviewed by the relevant Senior Management Team within the corresponding Directorate, or at overall Council level. Any senior officer with any accountability for the risks will have been consulted in the course of their reporting.

#### 4.5 Risk Assessment

The relevant Risk Register is attached in Appendix one.

### CORPORATE RISK REVIEW

- 5.1 The Corporate Risk Register comprises risks that cut across the Council's Directorates, which could potentially impact on overall strategic objectives.
- 5.2 The contents of the attached register tend to focus on the more negative, potentially threatening sides of risk to the Council – looking at the consequences that might happen if a particular event occurs. However, with risk management there is often an opportunity connected with a potential risk where an upside can be exploited. This is referred to explicitly in the Council's Risk Strategy where it is stated: *“if we focus on opportunities when assessing the merits of different possible solutions, this often allows us to look at bolder, more creative or innovative solutions - essentially to take greater risks, but calculated risks.”* In the case of the Council, there have been situations (as referred to in the Risk Register) where potentially negative events like funding cuts have occurred, or new legislation has been issued. In fact, this has often led to improved efficiencies, and has served as an opportunity to sometimes streamline services, and encourage new and more effective approaches to an area of work. It should be stressed that the Council, in managing risks, strives to look for this positive angle within risk management.
- 5.3 The main changes to note from January's register are:
- **Pandemic**. There was always a risk relating to a potential pandemic but previously the assessed likelihood was low which did not necessitate its inclusion on the Corporate register. The sudden emergence of the Coronavirus in China around six months ago, (and arrival in the UK at the end of January) has had a truly international impact and had far reaching consequences on life around the world. Infections and deaths in the UK rose to such an extent that a lockdown was announced in March. The risk that this pandemic poses to Hackney Council is significant, and the risk of this continuing (or even a second wave) is something that poses serious challenges to the Council in many areas. These are detailed in the first risk on the register. It is hoped that numbers will continue to fall and then we can see the likelihood of this risk drop.
  - **Risk 1 – National and International Economic Downturn**  
This risk has now evolved quite significantly since it was first included on the Corporate Risk Register, but it remains critical.

The Conservative Government (having just won a clear majority in Parliament on 12/12/19) have put in place a series of measures that it feels will position the UK economy strongly to mitigate the impact of the current financial problems. The Council has a further £30m of efficiency savings to achieve by 2021/22 and this presents a significant challenge, which has been exacerbated by the outbreak of Coronavirus across the world. The outbreak of COVID-19 has meant great additional expenditure and reduced income for the Council. The departure from the EU in January 2020 occurred, and there remains the risk of a 'no deal' scenario by

the end of the year. The Fair Funding Review also posed a risk of some negative news regarding funding but that has now been postponed in light of the Coronavirus. There are examples of a more proactive approach to Commercialisation within the Council which show a new way forward in mitigating the impacts of austerity.

- Risk 1b – Impact of BREXIT vote  
The UK formally left the EU on 31/1/20 but there is the opportunity to agree a deal until the end of the year. The risk very much remains of ‘no-deal’ being secured, and this could have serious consequences. The EU Referendum result also influences a number of other risks on this register, such as the impact of New Legislation and also Pensions (and the financial impact Brexit may have on them).
- Risks 6 & 7 – Regeneration.  
This is a new iteration of the (Housing) regeneration risk, and particularly important in the light of the Council’s plans for future development. Clearly this will involve considerable borrowing and an exposure to external influences in the future. There are also serious financial implications around this risk.
- Risk 10 – Pensions & Risk 33 – Management of Data.  
The Pensions risk has been on the register for a number of years, albeit has changed in that time. Another risk was escalated to accompany the overall Pension risk relating to the Management of Pensions Data which has become an area of serious concern worthy of appearing on this risk register, and remains so. There have been improvements in the data (resulting in a decreased likelihood) but problems still remain.
- Risk 13 – New Legislation (cross Council).  
The (previous) Coalition Government announced a number of organisational change proposals when in power, which continued under the Conservative Government (still in power with a reduced majority, following last year’s election). The Care Act 2014 continues to impact clearly on work within CACH, whilst last year’s Housing and Planning Act 2016 is clearly impacting on future service delivery. There was also serious potential for upheaval with the proposed Education Bill last year. However, this was scrapped although further proposals are anticipated. Also, GDPR finally being enforced in May 2018, and the Homelessness Reduction Act of 2018 have created new responsibilities for the Council.
- Risk 18 & 18b– Workforce and recruitment  
Another risk resulting from austerity measures is the impact it is having on staffing levels and accompanying restructures. This could clearly impact on efficiency levels. In addition, to meet the financial challenges ahead, it will be necessary for the Council to have a more agile workforce and not one constrained by traditional custom and practices. Staff need to be on board with the modernisation agenda. The Council will also need to compete with other organisations to get the best candidates so pressure will be put on increasing salaries (or offering salary supplements like ICT) and other work benefits. There has been continued pressure to successfully recruit, especially in some specific areas like ICT, Social Care and Highway Engineers, however recent successful recruitment campaigns within ICT have suggested this problem is receding.
- Risk 20b – Corporate Resilience  
This is a new iteration of the risk previously more about Business Continuity (within ICT), emphasising the importance of the Council being suitably prepared to respond and adapt to incremental change and sudden disruptions. Clearly, failure to do this would impact massively on our ability to effectively deliver services and HMT decided this should be featured at Corporate level.

- Risk 21 – ICT Security  
The Director of ICT has escalated a number of new versions of risks to the Corporate register. The Information Security risk (and controls to mitigate its potential impact) is of particular importance, especially in the light of COVID-19, and a massive increase in home working across the organisation.
- Risk 23 - Person suffers significant harm  
This risk related to child welfare initially but after discussion at HMT was broadened to encompass all persons at risk in the Borough (including Council staff), and the safeguarding steps the Directorates are taking to protect them.
- Risk 25 – Contract Management (and the potential of fraud)  
This risk has evolved in the last year, with investigations ongoing but Housing Services are also implementing increasingly robust controls to manage contract related risks.
- Risk 27, 28 & 29 – Hackney Learning Trust related risks. SEND funding, serious safeguarding failure in a school and unregistered schools.  
The risk relating to unregistered schools has just been escalated to the Corporate register, by the Hackney Learning Trust’s Management team.
- Risk 30 – Temporary Accommodation.  
This was escalated to the Corporate Register in July 2017 and remains in place especially in light of the recent implementation of the Homelessness Reduction Act, placing further obligations on Councils.
  - Risk 31 - Fire Safety  
This risk was updated to reflect the climate post Grenfell and escalated to the Corporate register. The Council was already undertaking multiple measures to manage these risks and the controls here should now provide clear assurance.
- Risk 35 – Creation of new companies.  
This was a new risk last time which has been escalated to Corporate level, recognising the opportunities, but also risks which these new companies present.
- Risk 36 – Insourcing - This was escalated after the approval of HMT, and refers to the Council’s approach to Insourcing, and the benefits it may present. Obviously the Guidance paper is crucial in determining the best approach to Insourcing, depending on circumstances.
- Risk 39 - Climate Change. This was escalated at the end of 2019, and remains extremely important to the Council’s overall objectives.

## **6. COMMENTS OF THE GROUP DIRECTOR, FINANCE AND CORPORATE RESOURCES**

- 6.1 Effective risk management is a key requirement for good financial management and stability. This becomes more significant as funds available to the Council are reduced and budget reductions are made.
- 6.2 Whilst consideration of the risk register has no direct financial impact, many of the risks identified therein would have financial impact if they were realised. They therefore continue to be monitored to ensure that they are controlled to an acceptable level and that future actions to manage the risks are on track.

## **7. COMMENTS OF THE DIRECTOR FOR LEGAL AND GOVERNANCE SERVICES**

- 7.1 The Accounts and Audit Regulations 2015 require the Council to have a sound system of control which includes arrangements for the management of risk. This Report is part of those arrangements and is designed to ensure that the appropriate controls are effective.
- 7.2 Continuous review of the Risk register and impending legislation referred to is key to ensuring that the Council remain in control of the management of risk.

## APPENDICES

Appendix one - Hackney's Corporate, Strategic risk register.
