

Report to Hackney Health and Wellbeing Board

Date: 8th July 2020	
Subject:	COVID-19 VCS Recovery & Resilience planning
Report From:	Hackney CVS
Summary:	<p>As we move out of the crisis phase, we need to develop a strategy that will steer Hackney's recovery, and acknowledges the crucial role of the VCS sector; and that clearly sets out how the VCS sector will be supported to lead the recovery.</p> <p>An effective approach will require a redistribution of resources that provides sustainability for the VCS sector and empowers communities facing stark inequalities.</p>
Recommendations:	<ol style="list-style-type: none">1. Consider for how the seven themes align with and inform other local COVID-19 health inequalities workstreams for which the HWB has oversight.2. Consideration for how resources can be more equitably distributed across the system to achieve lasting equality; and to protect the sustainability of VCS sector partners crucial to the recovery from the impacts of COVID-19.
