

Health in Hackney Scrutiny Commission 23 rd September 2020 Integrated Commissioning Board Workstream for PLANNED CARE– annual update	Item No 6
---	-------------------------

PURPOSE OF ITEM

To give consideration to an annual update from the Planned Care Workstream of the Integrated Commissioning Board.

OUTLINE

The Commission hears once a year, in turn, from each of the 4 Workstreams of the ICB and invites the Workstream Director and the Senior Responsible Officer to attend to and discuss the progress being made and the current priorities.

Attached please find the update report. This year, in the light of Covid-19, we specifically asked for them to also address the following:

- a) What changes have had to be implemented because of Covid-19 and how are you managing to reduce the backlog post lockdown?*
- b) How will care pathways have to change in the coming year to accommodate both transformation agendas and stabilising services post Covid?*
- c) With the new ICS in place from 1 April how will it impact on commissioning flows from borough to NEL level*
- d) What are your 3 or 4 top areas of focus and which KPIs must take priority over the next 12 months*

The Commission last heard from Planned Care on 8 April 2019 and the minutes of that discussion are [here](#). They had been scheduled to return in March 2020 but this had to be postponed because of Covid-19 issues.

Attending for this item will be:

Andrew Carter, Director of Community and Children’s Services, City of London Corporation and Senior Responsible Officer for the Planned Care Workstream of City and Hackney Integrated Commissioning Board

Siobhan Harper, Workstream Director – Planned Care, LBH-CCG-CoL

ACTION

Members are asked to give consideration to the report and discussion and make any recommendations as necessary.
