2.2 The Scorecard provides a quarterly overview of the Council’s Corporate risks, along with a selection of leading Directorate risks (to ensure a comprehensive overview is provided). These are assessed in advance of each Audit Committee meeting and after being ratified by HMT, are updated accordingly. There is sometimes as little as two months between updates which means that scores can remain static for periods of time. This is not a reflection of a lack of dynamism within the approach, but rather the fact that high level scores are unlikely to change dramatically within short spaces of time. New risks are regularly incorporated into the Corporate Register and will always be marked as ‘new’. The Scorecard will contain clear reference as to the movement (of the score) of the risk, and clarity as to the exact nature of the risk (whether it is of an internal or external nature to the Council).

2.3 In terms of this latest iteration of the (Corporate) register, there are 14 red risks and 9 amber risks. Clearly, numerous external events and influences are having a considerable impact on the Council’s objectives, notably the continuing impact of the Coronavirus pandemic and the effects it is having in multiple areas. Areas like finances (with budget cuts) were already problematic before the pandemic, and they have intensified now. Brexit remains a key risk and the COVID-19 crisis poses a further risk in the manner it is potentially detracting from Brexit negotiations for a satisfactory deal. Clearly, the nature of any deal (or lack of one) will impact on the future work of the Council so the risk remains very highly rated whilst we await some clarity on exactly what will be agreed. The latest COVID-19 risk relates to the probability of a second wave occurring in the autumn and ensuring that the Council is well positioned to manage this. From an internal Council perspective there is a clear challenge to all Services, especially those of a more front facing nature and this is reflected in details on the Corporate register. An important control for the Council clearly lies in the detailed Business Continuity Plans which are up to date for every service area. These should provide assurance that in the continuing case of closures of offices and potential absences of staff, services can still continue to operate as effectively as possible.

Some risks have remained red with no change – this score reflects the continued severity of both the impact and likelihood of the risk. For example, financial cuts (and their effects) are likely to remain a significant risk, simply because they will always have a high impact on service delivery, and in the light of the current economy the chances of this continuing remain very probable. COVID-19 itself, has been having detrimental impacts on the overall world economy and stock markets which will be felt by all. However, even in the light of this continued red rating, the controls should still be able to provide assurance that the risk is being managed so far as is possible, and that the Council is taking appropriate action to best position itself in the light of challenging circumstances. Areas which are alluded to in the Corporate register, such as Integrated Commissioning and major programmes like Britannia, have their own separate registers going into much more detail with regards to all areas of risk.

In addition to the Corporate risks, the Scorecard also contains a selection of other major risks within the organisation. This assorted selection will usually be pulled from Directorate level and assist in providing an improved overview of risks around the Council, which don’t necessarily always get escalated to Corporate level. This extra level of risks was requested by Committee and will usually be comprised of high scoring areas which have

previously been on the Committee's radar, or areas of general importance (which may be on the threshold of being escalated to the Corporate Register). This should assist in providing an even more comprehensive overview.

3. FUTURE REPORTING TO AUDIT COMMITTEE

- 3.1 The reporting of the Corporate risks to Audit Committee will continue at future meetings, on a quarterly basis. With twice yearly updates of the full Corporate Register, the next one is scheduled for January 2021, so the full details on all risks will be provided then.
