

City and Hackney Covid Vaccination Programme

Local Outbreak Board Update

11.11.2021

Current performance (1st and 2nd doses)

Cohort breakdown

Cohorts	Total eligible population	First Dose	%	Second Dose	%	NEL average (1 st dose)
Cohort 1-12 (all those 18+, health and social care workers and those residents who are CEV or at risk of Covid)	268,466	173,602	65%	160,535	60%	68%
Aged 16-17 (Healthy)	6,356	1,660	26%			35%
Aged 12-15 (Healthy)	13,718	1,658	12%			13%
Aged 12-15 (CEV)	1,133	235	21%			17%
Pregnancy	2,746	1,395	51%	1,175	43%	53%

Source: CEG data, 18+ data from 4/11, CYP data from 9/11, pregnancy data from 3/11

Note:

- (1) Pregnancy data will already be accounted for in the Cohort 1-12 or CYP data
- (2) Of cohorts 1-12 average for cohorts 1-9 is 76% first dose uptake vs 58% for cohorts 10-12
- (3) 12-15 year old LVS offer went live 25/10
- (4) NEL averages for 1st doses:
 B&D: (65%), Havering (80%), Newham (63%), Redbridge (72%), Tower Hamlets (67%), WF (69%)

Current performance – (boosters & 3rd doses)

Priority cohorts as per JCVI guidance	Total Population	Received 2 nd vaccination	Vaccinated (Booster)	% Booster*	NEL average (%)
1. People aged 12years or over who are immunosuppressed	5,357	4,055	1,927	48%	44%
1.1 Housebound immunosuppressed	154	130	29	22%	32%
1.2 Residential/ Care home immunosuppressed	23	23	9	39%	61%
2. Older adults in a care home (excl immunosuppressed)	292	248	96	39%	66%
3. Adults aged 70 years or over	13,047	10,880	6,472	59%	70%
4. 16-69 clinically extremely vulnerable	43,337	29,414	5,414	18%	18%
5. Adults aged 50 to 69	33,690	23,631	2,995	13%	15%
6. Adults aged 16 to 49 years at risk of covid or flu	7,121	4,800	214	4%	7%
7. Housebound exc. immunosuppressed	2,220	1,764	350	20%	30%
Totals - Booster cohort	105,241	74,945	17,506	23%	28%

Source: CEG data, 8/11/2021

- (1) % Booster is the total # of Vaccinated (Booster) divided by total # received 2nd Vaccination. Not all of those who have received a 2nd vaccination will be eligible for a booster/3rd dose based on JCVI guidance.
- (2) Weekly process and searches defined to ensure eligible patients are invited on a rolling basis by the office of PCNs
- (3) Currently, a huge focus on mobilising housebound vaccination team to work through housebound lists. As of wc. 08.11 have sign off to vaccinate using AZ

Breakdown of activity by delivery channel in C&H *(week commencing 1st November)*

	W.C. 01/11/2022			Totals by delivery channel (#)
	First	Follow-up	Booster/ 3rd	
LVS	616	361	2,347	3,324
Community Pharmacy	490	751	1,433	2,674
Hospital Hubs	23	34	260	317
Totals by vaccination type (#)	1,129	1,146	4,040	6,315

Note:

- *the table above is representative of all activity that has taken place in the delivery channels within City and Hackney within a given week. This includes City and Hackney **and** non City and Hackney patients and residents.*
- **Breakdown of C&H activity:** 1st doses - c. 86% were C&H residents, 66% of 2nd doses, and 96% of boosters/3rd doses
- **Breakdown (%) of activity by channel:** LVS – 53%, Community Pharmacy - 42%, Hospital Hubs – 5%

Recap of C&H vaccination offer

Delivery Channel	Second doses	Evergreen offer	16-17 year olds	12-15 CEV	3 rd Primary dose	Phase 3 booster	12-15 Healthy	Maternity	Health and social care workers	Pop-ups for employers, universities & inclusion groups

A continued focus on driving uptake rates of the most vulnerable through call and recall

Cohort	Eligible based on JCVI guidance	Information
Immunosuppressed (3 rd dose)	1860	This cohort have been invited with a text message and 2 follow up phone calls where required. This is cohort that can be invited after 8 weeks from second dose. Also being contacted by secondary care.
70 yrs plus (booster)	2817	This cohort have been invited with a message and all have received 1 call (unless just become eligible). Recall team is revising these 2817 w.c 08.11
16-69 CEV (booster)	5717	All sent a invite by text message and 1 telephone attempt
16-49 At risk of Covid & Flu (booster)	866	All sent an invite by text message and to be called by the recall team wc. 15/11
50-69 (booster)	2018	To receive a text message by week commencing 15.11
50+ No contact coded (first dose)	1251	All received text message and recall team have made at least 1 attempted contact. Those unable to contact by telephone will be contacted by letter.
City Hackney practice staff (booster)	n/a	Practices can email PCN team for staff to be sent an invitation. Alternatively, they can book via National Booking system and self confirm they healthcare workers. ID may be requested
12-15 CEV (first dose)	898	All received text invite, one call and in the process of following up those who have been unable to get through to

In the process of recruiting medical students for winter push to increase calling capacity

Outreach work continues to target the most vulnerable residents, as well as geographies and ethnicities with the lowest uptake

Achievements to date: (12th Oct – 10th Nov)

- **8** Community organisations being onboarded for Equitable Vaccine Uptake Round 2 (Shomrim, CAN, Skyway, Bangla Housing, Halkevi, Future Challenges, Hawa Trust, Kanlutan)
- **115** people vaccinated at the Apex London – Bridging Hotel
- Testing and training events held at Apex London
- **331** people vaccinated at the Spring Hill Practice outreach clinics (17 Oct, 24 Oct, 31 Oct & 7 November)
- Feedback and evaluation report completed for Kings Park education event
- Outreach Vaccination/Testing and Outreach Engagement plans developed to address identified priority areas:
 - **LSOAS**
 - Priority 1: Address the uptake across the 14 LSOA's with less than 50% uptake
 - Priority 2: Address the uptake across other LSOAs that have an uptake between 50-60%
 - **Ethnicity**
 - Deep dive into the Any Other White Background to understand the specific needs of the communities within this community, i.e, Orthodox Jewish, Haredi, Turkish Kurdish, White Eastern European
 - Low uptake in Black African and Black Caribbean population

What next?

1. Community organisations will be tasked to gather insights and engage with communities in the priority LSOA areas to drive uptake through to existing vaccination sites with plans to offer of hyper local outreach clinics (where capacity permits)
2. Further 5 outreach Vaccination and Testing clinics booked within Springhill Practice (21st, 28th November, 5th, 12th and 19th December).
3. Further 2 outreach vaccination clinics at Apex London – Bridging Hotel (17th and 24th Nov)
4. Agree forward plan with Find & Treat Team and how they collaborate with wider teams to ensure the most vulnerable are vaccinated over the coming months
5. Develop denominators for Homeless, Rough Sleepers, Asylum Seekers, Sex Worker and Gypsy Roma Travellers required by NHSEI
6. Review potential for vaccination event in Kings Park ward
