### **Approval of London Borough of Hackney's Air Quality Action Plan**

Dear Sam,

Thank you for the submission of your Air Quality Action Plan (AQAP) to the GLA for final approval.

The plan is comprehensive, including all the actions required by the statutory London Local Air Quality Management framework and number of additional locally derived actions. It also includes a number of clear targets and deadlines, some of which were enhanced in response to feedback from GLA/TfL and your residents. Thank you for taking these comments on board.

I am happy to confirm that the AQAP is approved. Good luck with delivery of this plan, and we look forward to seeing progress outlined in your Annual Status Reports, which are due for submission to us at the end of May each year.

Kind regards,

**Philip Graham**

Executive Director  
Good Growth
