## Procurement Impact Assessment [PRIMAS]

For Equalities, Environmental and Efficiency Assessment of Hackney Procurements

## Please read the notes below before completing the PRIMAS

The London Borough of Hackney adopted an updated Sustainable Procurement Strategy in November 2018 This is aligned to our Sustainable Community Strategy and Mayor's key strategic objectives.

We aim to improve the efficiency of our commercial spend to deliver major social and environmental benefits within our local community and nationally; using our purchasing power to address any adverse impact on our communities and delivering added value (social, economic and environmental benefits to our people and communities).

The key themes of the new Strategy are: <u>Procuring Green</u> <u>Procuring for a Better Society</u> <u>Procuring for a Fair Delivery</u>

The sustainable procurement strategy summary <u>https://docs.google.com/document/d/10mpL6bcShnVUUSLIgVgiSuiDbUNA4k</u> <u>GQrD\_2FkrQsqc/edit</u>

The Public Services (Social Value) Act 2012 became law on the 8th March 2012. From 31st January 2013 the Act is 'live' and commissioners and procurers must adhere to it.

The Act applies to the provision of services or the provision of services together with the purchase or hire of goods or the carrying out of works; and places a duty on public bodies to consider social value ahead of a procurement.

The Act states that.. the authority must consider how what is proposed to be procured might improve the economic, social and environmental well-being of the relevant area, and how, in conducting the process of procurement, it might act with a view to securing that improvement.

The Act can be found at the following website: http://www.legislation.gov.uk/ukpga/2012/3/contents/enacted

Procurement Officers and Commissioners are reminded that consideration must be given to the Social Value and the Best Value Statutory Guidance since it was introduced in September 2011. Further information on the Best Value Statutory Guidance can be found at the following website: <a href="https://www.gov.uk/government/uploads/system/uploads/attachment\_data/file/5945/1976926.pdf">https://www.gov.uk/government/uploads/system/uploads/attachment\_data/file/5945/1976926.pdf</a>

## HACKNEY PROCUREMENT HUB Procurement Impact Assessment [PRIMAS]

For Equalities, Environmental, Economic and Efficiency Assessment of Hackney Procurements Please refer to Best Practice Guide No 3 (Risk and Impact) for guidance on

	FAIR DELIVER	Y (I	Equa	alitie	es Impact)	
Q1.	Has the service/policy to be procured already been subject to a Corporate Equalities Impact Assessment? <b>Please</b> <b>add Hyperlink</b> . If YES, go to Q7 below. If NO, go to Q2 below.					If YES please provide details
Q2.	Could this procurement have a positive impact on people or groups due to their age, disability, ethnicity, gender, religion/ belief, sexual orientation and/or other characteristics? If yes, explain if this impact can be justified. Please provide details.					This may be inherent in the subject matter of the contract, if this is not the case, think about the wider impacts on people who come into contact with the contractor/ service/ building/product

Could this procurement have a negative impact on people or groups due to their age, disability, ethnicity, gender, religion/belief, sexual orientation and/or other characteristics? If yes, please provide details and explain if this impact can be justified.		Examples might be: A service which relies on customer communication via an IT system may alienate older people or people from particular religious communities. In industries with typically high numbers of low skill staff, some communities may be disproportionately impacted by salaries which do not afford a reasonable standard of living
<ul> <li>Q4. Can the procurement be altered (in terms of objectives or specification) to eliminate the adverse impact and still meet the overall aims.</li> <li>Q5. Has the possibility of Modern Slavery, Forced Labour and Human Trafficking within the Supply Chain been investigated? If so, state whether there is considered to be a significant risk to be managed.</li> </ul>		There may be impacts on different groups which are beyond our influence, so this should be identified here too. We ask all relevant suppliers to confirm compliance with the Modern Slavery Act, and all contractors to confirm that they have a whistleblowing policy in place for staff. However, it may be appropriate to include additional checks or contract clauses within industries where there is a known risk (eg: where high volumes of lower skilled staff are employed).
Q6. Is this procurement preventing corruption, fraud, bribery and exploitation, with initiatives such as Fairtrade, active worker representation, paying a living wage, provision of social benefits (healthcare, schooling,		Refer to the Sustainable Procurement Strategy for details of our commitments relevant to your procurement and confirm that these have been considered.

nutrition, etc.) Please provide details.						
FAIR DELIVERY PERFOR T Q7. What Performance India included in the contract description. a) b) c)	Align these to the targets in the Sustainable Procurement Strategy					
PROCURING GREE	PROCURING GREEN (Environmental impact)					
Q8. Does this procurement have a positive environmental impact - through purchase, usage, delivery or disposal?	This may be direct (eg: procurement of electric vehicle charging points) or indirect (eg: re-procurement of a service which includes replacing traditional paper-based functions with electronic processes).					
Q9. What, if any,? are the negative environmental impacts?	For example: Fuel usage/travel miles, use of disposable plastics.					
Q10. Can the impact be mitigated through the policy, specification or tendering process (use whole-life costing to assess)	Consider durability of products or equipment - can we buy equipment with a longer life without prohibitive cost increases or compromising quality?					
Q11 a. Specify the risk rating (Low, Medium, High) for each impact.						
PROCURING GREEN PERFORMANCE INDICATORS/QUALITY TARGETS Q12. What Performance Indicators/quality targets are to be included in the contract to cover Environmental issues? Give brief description. a) b) c)					Align these to the targets in the Sustainable Procurement Strategy.
