

providing high quality cuisine. I would certainly not expect the consumption of such alcohol with a meal to have a detrimental impact on the locality.

- The consumption of alcohol is ancillary to a meal and must be consumed at a table. This will not be a bar or a pub. I would not expect there to be any anti-social behaviour emanating from our patrons.
- We will not be selling alcohol for consumption outside of the premises.
- I do not expect our presence to attract any crime - to the contrary our presence as an attractive and well monitored restaurant should make crime less likely than a vacant railway arch.
- Our presence will have no impact on safeguarding issues for children playing in the area or walking to school.
- The restaurant will present no impediment for anyone accessing neighbouring buildings.
- This will not be a Japanese saki bar. Alcohol may only be consumed with a meal. We will not be a "bar".

13. In the light of the concerns raised by residents I agree to amend the application so that the hours for alcohol be changed to:

Monday to Saturday midday to 2300

Sunday midday to 2230

14. I note the concern that we will operate 7 days a week, This is not our intention. We are likely to trade 6 days a week. We are not sure yet which day we will close which is why we have applied for 7 days.

15. I would welcome a meeting with any neighbours who may have concerns about the nature of our restaurant. I very much hope that I have alleviated some if not all of the concerns raised in the resident's representation.

13. I attach a sample menu for information. (annex 1)

14. I attach details of my own experience. (annex 2)

Signed

Yukiyasu Kaneo
