Why is the report being brought to the board?

This report is being brought to the board as part of an engagement session. We are engaging with all HWBB.

Has the report been considered at any other committee meeting of the Council or other stakeholders?

This has been considered at all other HWBB and Place based Partnership meetings.

1. Background

- 1.1. The NEL Joint Forward Plan (NEL JFP) is a complete draft of our system's five-year plan describing how we will, as a system, deliver our Integrated Care Partnership Strategy as well as core NHS services – and a supporting reference document providing further detail on the transformation programmes described in the main plan.
- 1.2. As a partnership, we have more work to do to develop a cohesive and complete action plan for meeting all the challenges we face. We will work with local people, partners and stakeholders to iterate and

improve the plan as we develop our partnership, including annual refreshes, to ensure it stays relevant and useful to partners across the system.

- 1.3. This Joint Forward Plan is north east London's first five-year plan since the establishment of NHS NEL. In the plan, we describe the challenges that we face as a system in meeting the health and care needs of our local people, but also the assets we hold within our partnership.
- 1.4. We know that the current model of health and care provision in north east London needs to adapt and improve to meet the needs of our growing and changing population and we describe the substantial portfolio of transformation programmes that are seeking to do just that.
- 1.5. The plan sets out the range of actions we are taking as a system to address the urgent pressures currently facing our services, the work we are undertaking collaboratively to improve the health and care of our population and reduce inequalities, and how we are developing key enablers such as our estate and digital infrastructure as well as financial sustainability.
