|--|---------------------|

Outline

A key element of the Overview & Scrutiny function is involving the public in scrutiny activity, and taking up issues which are of concern to local people.

Technological changes have prompted Scrutiny Panel to develop a protocol providing guidance and information to scrutiny councillors, officers and the public to support public engagement in the scrutiny process.

The Overview & Scrutiny Public Engagement Protocol was agreed by Scrutiny Panel at its meeting on 13th July 2023.
